

TENMAT

FF130

Fire Rated Troffer Cover

INSTALLATION INSTRUCTION

Step 1

Pierce suitable holes in cover for cables if required.

Note: Cables should be a tight fit.

Step 2

Pass cover through ceiling.

The cover can be folded if required to ease installation in restricted spaces.

Step 3

Ensure cover is located over ceiling grid and sits flush with ceiling tiles.

Step 4

Once cover is in position, the light fixture can be installed following the light manufacturer's installation instruction.

Fire Tested to BS 476: Part 23: 1987
Test Report No.: A04038 / Chiltern Int. Fire
