

# Installation Instruction

FF130

# TENMAT

## Step 1

Pierce suitable holes in cover for cables if required.

**Note:** Cables should be a tight fit.

## Step 2

Pass cover through ceiling. The cover can be folded if required to ease installation in restricted spaces.

## Step 3

Ensure cover is located over ceiling grid and sits flush with ceiling tiles.

## Step 4

Once cover is in position, the light fixture can be installed following the light manufacturer's installation instruction.
